Groq insight summary

Here is a summary of the GP Surgery feedback, identifying positive and negative trends:

Positive Trends:

Many patients praised the kindness, helpfulness, and professionalism of the doctors and staff.
Patients appreciated the efficient and quick service, with many able to get appointments on the same day or quickly.
The doctors were praised for taking the time to listen to patients' issues and providing clear explanations and treatment plans.
Patients felt supported and cared for, with many expressing gratitude for the help they received.
The surgery's organization and management were praised, with many patients commenting on the ease of getting appointments and the helpfulness of the reception staff.

Negative Trends:

A few patients experienced difficulties getting appointments with their preferred doctor.
One patient had a negative experience with a nurse who had trouble drawing blood and had to try multiple times.
Another patient was not able to get a resolution to their problem and was told to visit the hospital instead.
A few patients mentioned difficulties with communication, such as not being able to email for prescription repeats.

Common Themes:

Patients valued the friendly and welcoming atmosphere of the surgery.
Patients appreciated the doctors' and staff's willingness to listen and help.
Patients praised the efficiency and organization of the surgery.

Areas for Improvement:

Difficulty getting appointments with preferred doctors.
Communication issues, such as emailing for prescription repeats.
Some patients' experiences with certain staff members (e.g. nurse with trouble drawing blood).

Overall, the feedback suggests that the GP surgery is providing high-quality, patient-centered care, with many patients praising the kindness, helpfulness, and professionalism of the doctors and staff. However, there are a few areas where the surgery could improve, such as addressing difficulties with appointment scheduling and communication.

68	67: The appointment was prompt and handle with care and all the needs were throughly addressed
69	68: Seen on time dealt with efficiently sympathetically and professionally Thank uou
70	69: Already taken care of and heard Quick appointments
71	70: Urgent when I need urgent Telephone answered politely Thank you
72	71: The doctors and staff are always incredibly helpful and very fast response times whenever needed
73	72: Was able to see the doctor in good time
74	73: I cant email for prescription repeat anymore and I cant get the other ways to work so I have to phone
75	74: The young girl in reception was helpful when I last went some months back now as was the dr when I phoned for a prescription which I urgently needed aa a one off
76	75: It was Quick and very professional
77	76: I did not get a resolution to my problem and was told to visit the hospital instead
78	77: Telephone to a doctor twice a day
79	78: My experience with medical staff has been very positive and with some but not all of the reception administrative staff as recorded below
80	79: Quick appointment excellent service and helpful receptionists Accurate diagnosis effective treatment and very clear explanation from a kind and attentive doctor
81	80: The doctor took time to listen to the range of symptoms and I really appreciated a text with clear instructions about treatment I also hugely value being able to see a doctor with my baby quickly
82	81: Dr PERSON and the other doctors I regularly see Dr PERSON etc are very responsive and understand well some of the unique aspects of my medical needs They are flexible receptive and patient collaborative which is ideal for me
83	82: Everything was scheduled easily and on the day everything worked seamlessly
84	83: A doctor I had not seen before at this surgery who was very thorough and fortunately because of this I was able to get to the bottom of my last illness and get it sorted and get well again
85	84: Great service On time and painless blood test

4. Improvement Suggestions

Suggestions from patients on what could be improved, supported by an AI-generated theme summary.

Groq insight summary

Here is a summary of the GP Surgery improvement suggestions, identifying trends:

The majority of patients are satisfied with the care they receive at the GP surgery, with some expressing excellent experiences (5, 8). However, there are several suggestions for improvement.

Trend 1: Face-to-Face Interaction
Several patients (1, 7, 11, 12) suggest that face-to-face appointments should be more readily available and flexible, rather than being restricted or having to wait for a long time.

Trend 2: Communication and Accessibility
Some patients (1, 9) mention difficulties with communication, such as having to speak through a glass partition, and physical accessibility, such as the lift being difficult to operate for older patients.

Trend 3: Comfort and Ambiance
A few patients (3, 6) suggest that the interior decor and ventilation in some waiting areas could be improved.

Trend 4: Punctuality and Efficiency
One patient (10) expresses dissatisfaction with punctuality and questions the accuracy of a blood test.

Trend 5: Personalized Care
Some patients (2, 4) appreciate the personalized care they receive, but one patient (2) feels that they are being "looked after too much".

Overall, patients value face-to-face interaction with their GP, and suggest improvements in communication, accessibility, comfort, and efficiency.

Improvement suggestions (15)

1	0: It seems to me that everything is already excellent why change
2	1: Face to face rather than through thick glass If this is unsafe then communication should be made easier apperture in glass too low in my view
3	2: YES ARE LOOKING AFTER ME TOO MUCH BECAUSE THEY HAVE ALOT OF EXPERIENCE
4	3: A bit of change in interior decore wouldn t hurt
5	4: Yes I need the GP which buts nasty like DR PERSON
6	5: Honestly the best GP Ive ever had
7	6: The ventilation in some of the waiting areas is poor particularly waiting room 5 which is very small and the sash window does not open properly
8	7: To see the Doctor face to face much better
9	8: Cant think of anything Very well done to all the staff and a big thanks
10	9: The lift is a bit difficult to operate if you are very old
11	10: punctuality could have been improved and i have to question whether the blood test was done correctly it was also

	extremely painful
12	11: Yes to see my Gp I ve had for years Not wait 3 weeks for an appointment
13	12: Just booking face to face appointment should be more flexible
14	13: A proper diagnosis and simple prescription
15	14: Easier to see one in person
